

## **IMPORTANT TRAVEL INFORMATION**

This is to inform you of the changes taking place with the Airport Security and how this will effect travelers. The Transportation Security Administration "TSA" has been working on a new Secure Flight Program, which will effect all travelers domestic and international.

### **First:**

Beginning June 1<sup>st</sup> all international travel including Mexico and Canada will require US Passports or Boarder Pass. Boarder Passes are good for travel from the US to either Mexico or Canada and cost approximately the same as a regular passport.

### **Second**

The TSA Secure Flight Program will require that all travelers names appear "exactly" as they do on their Drivers Licenses and Passports. This includes middle initials and hyphenated names. If "Richard" appears on traveler's driver license it cannot appear as Bob or Rich on the airline ticket. Additional information such as (Date of Birth) and (Gender) will also be required.

In order to have a smooth transition into this new process we are asking all travelers or company administrators to review traveler profiles and to begin supplying Omega World Travel with the above information so we may begin updating profiles.

### **Some tips for travelers:**

For international travelers, if your name appears slightly different on your passport (example-drivers license shows middle initial however on passport middle name is spelled out) we will need to be advised.

Frequent Flyers will also be effected if name does not reflect the correct spelling. Travelers may wish to begin notifying appropriate carriers for name adjustment.

I've listed two links below for additional information. If I or Allison can be of any assistance please do not hesitate to contact either of us directly. Omega World Travel appreciates your business.
